

# PBL SMARTPHONE PHOTOGRAPHY

## DISCOVERING YOUR CAMERA

Name:

Device:

Camera Specs: (copy/paste)

Camera Reviews: (copy/paste at least 2 for your device)

Let's Check out what your camera can do!

1. How do you access the camera app?
2. Does your phone have a feature that will quickly let you open it? If yes, describe.
3. Is there a video option on your phone? If so, how do you switch between camera and video mode?
4. Can you take a "still" picture while you are in video mode? Explain.
5. Is there a front facing camera? If so, how do you toggle between rear-facing and front-facing modes?
6. Do you have a shutter button in camera mode?
7. Are there other options to snapping a pic other than using a shutter button?
8. Briefly describe how you take a picture.
9. Is there a "burst" mode or way of capturing multiple pics very quickly? If so, how do you do it?
10. Do you have a zoom feature? If so, how do you use it?
11. Most cameras have an auto focus option, does yours?
12. Can you turn auto focus off? If so, how do you focus when it is off?
13. Basic settings you can access: (If you have these, know how to turn them on/off.)
  - a. Exposure?
  - b. HDR?
  - c. Flash?
  - d. Timer?
  - e. Panoramic?
  - f. Shutter Speed?
  - g. Shutter Sound?
  - h. ISO?
  - i. Location tags?
  - j. Photo size?
  - k. Storage?
  - l. Other?

\*If you find that your camera is lacking many features, download a camera app to use for this class...Open Camera, HD Camera, iCamera, iCamera OS10, etc. DO NOT pay for a camera app. There are several free options. Find ONE you like and stick with it for the remainder of this class.
