

PBL SMARTPHONE PHOTOGRAPHY

ONE SPOT PHOTO CHALLENGE

There are many different angles and perspectives that make our photos more interesting. We will be discussing those this week so let's capture some photos.

Directions:

- Pick a spot. You can't move from that spot. You can turn around, stand up, sit down, lie down, jump around, sing a song, make funny faces... but you can't move from your spot!

- Take pictures 15-20 pictures! Think far away, close up, looking around, framing it up, lining it up, color, perspective, scale, pattern, looking up, looking down...see what you can find that might help you capture something unique and different than your classmates!!

You'll be amazed at how much you can see when you REALLY start looking!
